3 Using Easy PDF Text Replace

Under Windows Operation System, Easy PDF Password Security can be started either via the desktop shortcut, or directly from Windows explorer.

When you start the program, if you haven't registered our product, you will be informed to purchase the full version.

Then you will be presented with the primary screen.

Add documents

Click the  icon in toolbar will open the standard file browse and select window, where you can browse the folders and find the PDF file you want to mail. Alternatively you can open the "**File**" menu

and select "Add PDF Document" to add PDF file.

If you are using Windows Explorer to locate files, you have the convenience of being able to **‘drag and drop’** files into the document window to add PDF file.

Easy PDF Rename even allows you to select all files in a particular directory/folder by either using the **Add a Directory** option from the File menu or click the  icon! Add a directory also supports sub-folders.

Text Replace Settings

Easy PDF Text Replace allows you to define what to be replaced and what to replace with, even delete selected text.

Simple

2 Text Replace Setting

Simple | Advance

Text to be replaced : Easy PDF.com

Replace with: www.easy-pdf-tools.com

 Leave the 'replace with' field blank, stand for deleting

Case Sensitive Using Wildcard Expressions

In the image above, input "Easy PDF.com" to the input field of "**Text to be replaced**" and input "www.easy-pdf-text-tools.com" to the input field of "**Replace with**", that means the text "Easy PDF.com" in PDF file will be replaced with "www.easy-pdf-tools.com".(If you leave the "**Replace with**" field blank, that means deleting "Easy PDF.com" in PDF file)

Software also supports Case sensitive and Wildcard Expressions.

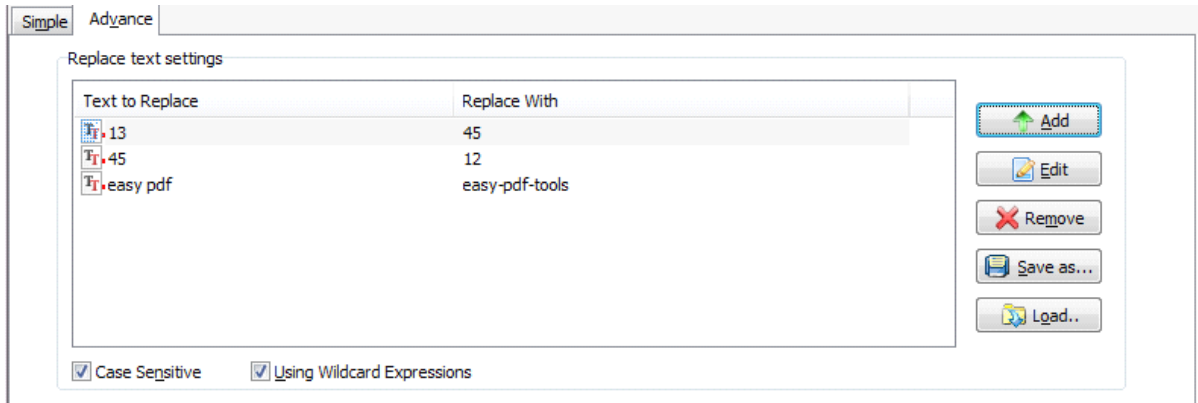

Case Sensitive Using Wildcard Expressions

Expression Example: [0-9]{2}-[0-9]{2}-200[0-8]{1}

Means all Dates from Year: 2000-2009 will be replaced with your new text

More Example...

Advanced

In advanced options, you can add many replace items, Easy PDF Text Replace will execute batch replace at the same time with the items you defined.

Finally , after you complete all the setting, you can click  button to start replacing or click  to select a folder to write produced PDF file in.

4 Ending Your Session

When you have completed your work , then choose the "**Exit**" option to exit program.
